2020	Chair, oral session: "Transgender and Gender Expansive People's Health Part 1: Substance Use and Violence"	APHA 2020 Annual Meeting and Expo (virtual)
2020	Chair, oral session: "HIV and PrEP"	APHA 2021 Annual Meeting and Expo

Institutional Review Board (IRB) Activities & Membership

2020-2021	Special Advisor on Research in India	IRB, Brown University
2021-	Standing Member	South General IRB, UCLA

Scientific Grant Reviewer and Chair Activities and NIH Committee Membership

2007, 2008, 2009	Reviewer, Scientific Review Committee	amfAR, Foundation for AIDS Research Grant Reviews: -Optimize HIV Treatment -Preventing HIV transmission -Applying social networking technologies to the prevention of HIV infection
2010, 2011, 2012, 2013, 2014, 2015	Reviewer, University of California Scientific Review Committee	California HIV/AIDS Research Program (CHRP)
2010	Outside Epidemiology and Behavioral Science Reviewer	The Providence/Boston Center for AIDS Research, Developmental Core
2010, 2011, 2012, 2013, 2014, 2015	Reviewer, Scholar and Feasibility Projects	Harvard Center for AIDS Research (CFAR)
2011, 2012	<u>Ad Hoc Member</u> Each Year Represents Participating in 3 Study Sections	NIH, Behavioral and Social Consequences of HIV/AIDS (BSCH); NIH, Center for Scientific Review
2012, 2013, 2014, 2015, 2016, 2017, 2018	<u>Standing Member</u> Each Year Represents Participating in 3 Study Sections	NIH, Behavioral and Social Consequences of HIV/AIDS (BSCH); NIH, Center for Scientific Review
2012	Reviewer, Harvard Catalyst Pilot Grants Program	The Harvard Clinical and Translational Science Center
2013, 2014, 2015	Reviewer, ZRG1 AARR-G	NIH, HIV/AIDS-related Career Development Award Applications
2013, 2014	Reviewer, HSPH-PDA-KOU Travel Awards	The Harvard Postdoc Association Travel Award Program
2014, 2015	Reviewer, ZDA1 NXR-B	NIH, Conflict Special Emphasis Panel,

2013, 2014, 2015 (reappointed)	Standing Member	Center of Excellence Program (P30) Office of AIDS Research (OAR), NIH, HIV/AIDS Racial and Ethnic Populations Research Priority Committee
2015	Reviewer, Health Research Grant Awards Program	Health Research Board (HRB), Dublin, Ireland
2015	Reviewer, ZDA1 NXR-B (09) R	NIH RFA, Seek, Test, Treat and Retain for Youth and Young Adults Living with or at High Risk for Acquiring HIV (R01)
2015	Reviewer, ZRG1 AARR-G (92) S	NIH RFA, Seek, Test, Treat and Retain for Special Topics in HIV/AIDS Behavioral Research
2015	Reviewer, RFA-MH-16-350	NIH RFA, Research Partnerships for Scaling Up Mental Health Interventions in Low-and Middle-Income Countries (U19)
2015	Reviewer, ZMH1 ERB-K 03 R	NIMH, Special Emphasis Panel, Global Mental Health (U19)
2015	Chair and Reviewer, RFA-HD-16-029 and RFA-HD-16-030	NIH/SBIR RFA review: Innovative Development/Use of Technology to Increase HIV Testing and Linkage to Care Efforts in Adolescent Populations (R43/R44) & NIH /STTR RFA review: Innovative Development/Use of Technology to Increase HIV Testing and Linkage to Care Efforts in Adolescent Populations (R41/R42)
2015, 2016, 2017, 2018, 2019	Reviewer	The Providence/Boston Center for AIDS Research (CFAR) Boston University Medical Center Collaborative Development RFA proposals and New Investigator Awards
2015, 2016, 2017, 2018, 2019, 2020	Reviewer	NIH/NICHD Loan Repayment Project Award Applications (www.lrp.nih.gov)
2016, 2017, 2019, 2020	Reviewer	Brown University Salomon Research Grant proposals
2016	Reviewer, NCIPC RFA-CE16-005	CDC RFA, Evaluating Practice-based Sexual Violence Primary Prevention Approaches, CDC Rape Prevention and Education Program

2016	Reviewer	University of Washington/Fred Hutch Center for AIDS Research New Investigator Awards proposals
2016	Reviewer, RFA-CA-15-007	NIH/NCI RFA, Planning for Regional Centers of Research Excellence in Non- communicable Diseases in Low- and Middle-Income Countries (P20)
2016, 2017	Reviewer	Innovation Awards, Hassenfield Child Health Innovation Institute, Brown University
2017	Reviewer, PA-14-344	NIH/NINR PAs, Self-Management for Health in Chronic Conditions (R01)
2017	Reviewer, PA-14-029	Chronic Condition Self-Management in Children and Adolescents (R01)
2017, 2018	Reviewer	Health Disparities Research proposals, Office for the Vice President of Research, Collaborative Seed Fund, Brown University
2017	Reviewer, ZHD1 DSR-K (LR) 1	NICHD, Special Emphasis Panel
2017	Reviewer, ZNR1 REV-M (29)	NINR, Special Emphasis Panel
2017	Chair and Reviewer	NIDA, RFA-DA-17-014: Optimizing the HIV Care Continuum for Substance Abusing Populations at High-Risk and/or Living with HIV (R01)
2017	Reviewer, NIDA Avant-Garde Award Program for HIV/AIDS Research	National Institute on Drug Abuse Avant- Garde Award Program for HIV/AIDS and Drug Use Research (DPA); NIH Director's Pioneer Award
2018	Reviewer	Robert Wood Johnson Foundation, Health Policy Scholar Grants
2018	Reviewer	Providence/Boston Center for AIDS Research New Investigator Awards proposals
2018	Reviewer, RFA-DA-18-019	NIDA Avant-Garde Award Program for HIV/AIDS and Drug Use Research (DPA); NIH Director's Pioneer Award
2018, 2019	<u>Standing Member</u> Each Year Represents Participating in 3 Study Sections	NIH HIV/AIDS Intra- and Inter-personal Determinants and Behavioral Interventions Study Section (HIBI)
2019	Reviewer, ZRG1 AARR-G (55) R	PAR-18-022/O23: Tobacco Use and HIV in Low- and Middle-Income Countries

2019	Reviewer, ZRG1 F17-P (20)	NIH, AIDS and AIDS Related Research Integrated Review Group
2020	Reviewer, ZRG1 F17-P (20) L	Fellowship: AIDS and AIDS-Related Applications
2020	Reviewer, RG1 AARR-G (55) R	PAR Panel: Tobacco Use and HIV in Low- and Middle-Income Countries
2020	Reviewer, ZHD1 DSR-K (90) 1	NIH Loan Repayment Review Group
2020	Chair and Reviewer, RFA-MD-20-005	Special Emphasis Panel (SEP). Methods and Measurement in Research with SGM
2020	Reviewer, 2021/01 NRRC (79)	National Institute of Nursing Research Internal Review Group
2020	Reviewer, ZDA1 YXF-U (12)S	NIDA Avant-Garde Award and Avenir Award Programs for HIV/AIDS and Substance Use Disorder Research (DP1, DP2)
2021	Reviewer, ZHD1 DSR-K (90) 1	NIH Loan Repayment Review Group
2021	Reviewer, ZCA1 SRB-2 (M1) R	NIH, Tobacco Use and HIV in Low and Middle Income Countries
2021	Reviewer, PAR-19-343, PA-20-188, PA-20-187, PA-20-189	NIH Pathway to Independence Awards
2021	Reviewer, Z(RFA-CA-21-029, P50s)	NCI Centers on Telehealth Research for Cancer-Related Care
2022	Chair and Reviewer	UCLA HEALRISE Fellowship Program
2022	Reviewer, ZHD1 DSR-K (90) 1	NIH Loan Repayment Review Group
2022	Reviewer, ZAI1 CD-A (J2) 1	NIH, Epidemiology to End the HIV Epidemic
2022	Reviewer, 10 ZMH1 ERB-M (07) R	NIMH Pathway to Independence Awards (K99/ROO)

Critical Reviews of Faculty Performance for Tenure, Promotion, and Appointment-Advancement Provided for the Following Universities

Johns Hopkins University (Medical School and School of Public Health), Baltimore, MD

Awards and HonorsPre-Doctoral Academic Achievement/Mentoring Awards

1997, 1998, 1999, 2000, 2001 Dean's List

Cal Poly, San Luis Obispo

1998, 1999, 2000, 2001 President's List

Cal Poly, San Luis Obispo

2001 President's Award (five recipients per year, awarded for outstanding scholastic merit and community service)

Cal Poly, San Luis Obispo

2001	President's Community Service Award	Cal Poly, San Luis Obispo
2001	Honors, Undergraduate Thesis, Health Status Report 2000	Cal Poly, San Luis Obispo. Published by the Department of Public Health, San Luis Obispo County, CA
Academic years: 2001-2002 2002-2003	Community Scholars Fellowship Award (half tuition stipend)	Boston University School of Public Health
Academic years: 2001-2002 2002-2003	Dean's Scholarship Award (half tuition stipend)	Boston University School of Public Health
Academic years*: 2004-2005 2005-2006 2006-2007	Harvard University Presidential Scholarship Award (*full tuition scholarship and stipend for up to 5 academic calendar years; completed doctoral degree in 2.5 years)	Harvard University
2007	Graduated with Distinction; 1 st in class of 15 candidates	Harvard T.H. Chan School of Public Health

Mentorship and Scholastic Awards

2009, 2010, 2011, 2012, 2013, 2014, 2015	Clinical LRP Award Funding Institute: National Institute on Drug Abuse (NIDA): 2009-2011 (original award); Renewal: 2012, 2013, 2014, 2015	National Institutes of Health (NIH) Clinical Loan Repayment Program (LRP), Division of Loan Repayment
2010	Outstanding Investigator in HIV/AIDS Research (one recipient per year)	University of Miami Center for AIDS Research (CFAR)
2013	Outstanding Postdoctoral Mentor Award	Harvard University
2014	Excellence in Mentoring Award	Harvard Medical School/Massachusetts General Hospital
2015, 2016, 2017, 2018, 2019	Faculty Travel Award	Brown University, Office of Faculty Governance
2016, 2017	NIH Grant Resubmission Awards (4 awards, totaling \$60,000)	Brown University, Office of the Vice President for Research
2016	Plain Writing Award	National Center for HIV/AIDS, Viral Hepatitis, STD, and TB Prevention, CDC
2016	Plain Writing Award	Division of HIV/AIDS Prevention, CDC
2017	Faculty Mentoring Award	The Fenway Institute, Fenway Health
2020	Sexual and Reproductive Health Section Award	American Public Health Association
2020 & 2021	Uncommon Bruin of the Game Award	UCLA Women's Basketball UNCOMMON and BEYOND Awards Program

Invited Consultations and Trainings: National Institutes of Health (NIH); Centers for Disease Control and Prevention (CDC); United States Agency for International Development (USAID); amfAR, The Foundation for AIDS Research; Bill and Melinda Gates Foundation; and United Nations High Commissioner for Refugees (UNHCR)

2006	National Institute on Drug Abuse (NIDA) First Research Training Institute. Applications were selected for invitation via a competitive review process, Bethesda, Maryland
2007	Invited Center for AIDS Research (CFAR) Social and Behavioral Sciences Research Network (SBSRN) 1 ST National Scientific Meeting and Training for New Investigators, Co-sponsored by the NIH Office of AIDS Research, Philadelphia, Pennsylvania
2009	National Institute on Drug Abuse (NIDA) invited consultation on recruiting and retaining high risk, substance dependent MSM in ongoing intervention trials, Washington, DC
2009	Centers for Disease Control and Prevention (CDC) invited consultation on HIV prevention messaging for MSM, Atlanta, Georgia
2010	United States Agency for International Development (USAID) invited consultation on prevention of HIV transmission among MARPs research and policy implications at Clinica Condesa and Colmex, Mexico City, Mexico
2010	Centers for Disease Control and Prevention (CDC) invited consultation on promoting sexual health through a public health approach, Atlanta, Georgia
2010	The Forum for Collaborative HIV Research (NIH) invited consultation on municipal scale-up of HIV testing in the US, Washington, DC
2011	National Institute of Mental Health (NIMH) invited MSM HIV/AIDS Prevention invited consultation, Bethesda, Maryland
2011	Joint National Institutes of Health (NIH) / Indian Council of Medical Research (ICMR), Indo/US working group invited consultation, main NIH campus, Bethesda, Maryland
2012	Centers for Disease Control and Prevention (CDC) invited consultation on HIV prevention for MSM, Atlanta, Georgia
2012	Centers for Disease Control and Prevention (CDC) invited consultation on STD prevention, Atlanta, Georgia
2012	amfAR, The Foundation for AIDS Research, MSM Initiative [now called the “Gay men, other men who have sex with men, and transgender individual’s initiative” (collectively, GMT)], invited working group consultation on innovative approaches to HIV prevention among MSM, Washington, DC
2013	Centers for Disease Control and Prevention (CDC) invited consultation on biomedical prevention (e.g., PrEP, ARVs for treatment) messaging for MSM, Atlanta, Georgia
2013	amfAR, The Foundation for AIDS Research, Treat ASIA, invited consultation on HIV prevention for MSM and transgender women, Bangkok, Thailand
2014	Joint John Snow, Inc., and Centers for Disease Control and Prevention (CDC) invited “Think Tank” meeting on using technology (mobile phones, SMS texts, internet, etc.) to deliver HIV bio-behavioral prevention modalities (e.g., PrEP, initiation of ART for HIV treatment, adherence, serosorting, etc.) messaging for MSM, Boston, MA
2016	Bill and Melinda Gates Foundation invited consultation on lessons from the effectiveness and impact of HIV behavior change interventions in the U.S., Europe and developing world, Washington, DC

2016	The Office of the United Nations High Commissioner for Refugees (UNHCR) invited consultation on adolescent refugee health and HIV and sexual health, Lusaka, Zambia
2017	National Institute of Mental Health (NIMH) invited consultation on HIV among sexual and gender minorities, Bethesda, Maryland
2017	The Office of the United Nations High Commissioner for Refugees (UNHCR) invited consultation on sexual exploitation among adolescent refugees, Quito, Ecuador
2018	Keck School of Medicine, University of Southern California/Children's Hospital LA, invited consultation on HIV prevention for young MSM, Los Angeles, CA.
2019	UCSF Center for AIDS Prevention Studies, Mentoring the Mentors Training Program for HIV researchers, San Francisco, CA
2019	Keck School of Medicine, University of Southern California/Children's Hospital LA, invited consultation on HIV prevention for young MSM, Los Angeles, CA

Research Program

Research Interests. My research program focuses on improving health disparities and health equity among a variety of populations at risk for HIV infection, such as marginalized and disenfranchised groups with vulnerabilities to health disparities or stigmatized conditions, including sexual and gender minorities, racial/ethnic minorities, and other groups that experience social, political, economic, and/or environmental disadvantage. My research includes developing and testing interventions to decrease sexual risk in HIV primary and secondary prevention; biobehavioral interventions to enhance antiretroviral medication uptake and adherence for both HIV treatment (ART) and prevention (PrEP and PEP); psychosocial treatment interventions for stimulant use disorder and concurrent HIV risk, and opioid use disorder and adherence to medication-assisted treatment; infectious disease and psychiatric epidemiology; and global health research within 12 resource constrained countries. My research program includes:

- 1. HIV Primary & Secondary Biobehavioral Prevention:** Developing and testing interventions to mitigate HIV risk with antiretrovirals. Current studies include interventions focused on: a) PrEP uptake, adherence, and retention in PrEP-related care (once-daily oral pill—emtricitabine/tenofovir (i.e., TRUVADA® or DESCOVY® or Cabotegravir (CAB-LA))—as pre-exposure prophylaxis for the prevention of HIV in uninfected individuals); b) nPEP phase 4 investigations to document tolerability, side effects, and completion rates (non-occupational post-exposure prophylaxis for prevention of HIV after sexual or injection drug use exposure); and c) antiretroviral therapy (HIV treatment) uptake, adherence, and retention in care.
- 2. Epidemiology of HIV & Other Sexually Transmitted Infections:** This includes, documenting the prevalence, incidence, and determinants (psychosocial, behavioral, biological and structural) of HIV and STI emergence and transmission in various at-risk populations; longitudinal population-based studies to define transmission dynamics and spectrum of disease and survival; characterizing social, sexual and drug use networks to better understand how connections (e.g., homophily, multiplexity), distributions (e.g., centrality, density), and segmentation (e.g., cohesion) potentiates HIV risk and infection; and agent-based modeling to estimate how micro-level processes generate and influence macro-level phenomenon
- 3. Treatment Approaches for Drug Addiction & Concurrent HIV Risk:** Developing and testing integrated psychosocial addiction treatment [e.g., behavioral activation (BA)] and HIV risk reduction interventions for stimulant and opioid use disorders. For example, problematic stimulant (i.e., crystal methamphetamine, cocaine, crack) use is a complex and treatment-resistant problem. One potential contributor to its intractability may be that existing treatments lack adequate attention to replacement activities or to the role of depressed mood/anhedonia relapse trigger, which is the cornerstone of a BA approach. BA is an evidence-based, cognitive behavior therapy approach for depression that involves re-learning how to engage in life by identifying and actively participating in pleasurable, goal-directed activities. The underlying hypothesis, for individuals abusing

stimulants, is that re-learning how to engage in the non-drug using aspects of one's life will facilitate their ability to benefit from concomitant HIV risk reduction counseling.

4. **Behavioral Interventions for HIV Prevention:** Development, evaluation, and implementation of interventions to modify behaviors that heighten an individual's vulnerability to becoming infected, or infecting others, with HIV. This includes interventions aimed to increase use of condoms and reduce numbers of sexual partners while taking individual characteristics into account, as well as their social, cultural, and economic context. Innovative approaches for delivering intervention content includes the use of technology (e.g., mobile phone counseling, text messaging, mobile apps, interactive video games using avatars, etc.). In addition, often times interventions will address the specific psychosocial problems that exacerbate HIV risks, such as empowerment, self-acceptance, and distress. Addressing these psychosocial problems as part of an HIV prevention intervention is a way to help individuals who suffer the damaging impact of adverse social conditions that they face—resulting in decreased distress and increased self-care—therefore promoting their ability to benefit from HIV prevention efforts.
5. **Global Health Research:** Conducting HIV prevention research that advances health among myriad at-risk populations in resource-limited settings. Current studies are being conducted in Asia, Africa, North America, Latin America, and Eastern Europe. My prior population-based studies have surveyed at-risk groups via the internet—spanning all Latin American countries, North America, Spain, Portugal, and Vietnam—to better understand risk and protective factors for HIV infection.
6. **Health & Human Rights Research:** Documenting the epidemiology of violence, exploitation, abuse, neglect, substance use, and poor psychological well-being and access to medical, mental health and social services among adolescent refugees in Sub-Saharan Africa and Latin America, with the goal of developing and testing behavioral- and structural-level interventions to promote healthier conditions.

GLOBAL HEALTH RESEARCH. In addition to my research conducted in the United States, I have had/have ongoing global public health research studies across multiple continents focused on HIV primary and secondary prevention. Countries where I have conducted research include: South Africa (Durban/Umlazi), Zambia (Lusaka), Nigeria (Lagos), Thailand (Chiang Mai and Bangkok), Vietnam (Ho Chi Minh City), India (Mumbai, Chennai and Pune), Brazil (Rio de Janeiro), Ecuador (Quito), and Peru (Lima). In addition, I have collaborated on research projects with investigators (Drs. Woody and Altice) at the University of Pennsylvania and Yale University in Ukraine (Kiev) and Russia (St. Petersburg). See illustration above.

STUDY POPULATIONS. My research involves a variety of populations at risk for HIV infection, including marginalized and disenfranchised groups with vulnerabilities to health disparities or stigmatized conditions, comprising sexual and gender minorities (LGBTQ individuals); racial/ethnic minorities; male sex workers; transgender sex workers; adolescents with HIV infection; adolescent refugees; heterosexual men and women with HIV infection; injection drug users; individuals with substance addiction; and other groups that experience social, political, economic, and/or environmental disadvantage, domestically and in resource-limited settings globally

GRANT FUNDING AS PRINCIPAL INVESTIGATOR (PI). I am/have been the principal investigator (PI) of several federally and foundation funded research grants, totaling **more than \$80 million**. These include 20 National Institutes of Health (NIH)-funded R- and U-level grants (6 R01s, 1 R56, 6 R34s, 4 R21s, 1 R03, and 2 U01s), 2 Centers for Disease Control and Prevention (CDC)-funded U01 grants, and greater than 30 additional research grants via MA and RI State Departments of Public Health, private foundations (e.g., amfAR), the Center For AIDS Research (CFAR) at both Harvard and Brown, Harvard Catalyst Grant Program, The Watson Institute, Brown Seed Award Program, the Reagan Institute of MGH, MIT and Harvard, NIH administrative and diversity supplements, and other university-supported funding opportunities.

With respect to [NIH research funding](#), among all NIH funded PIs worldwide, I ranked in the top [6% in 2018](#) (out of 39,142 funded PIs); the top [13% in 2019](#) (out 41,190 funded PIs); the top [10% in 2020](#) (out of 42,368 funded PIs); and the top [5% in 2021](#) (out of 42,739 funded PIs) for total NIH award funding for these years.

In addition, I am/have been primary-/co-mentor or co-investigator of over 45 federally- and foundation-funded research grants, NIH pre- and post-doctoral training grants (NRSA, R36, T32, and K grants), NIH diversity supplements, Center for AIDS Research developmental awards at Harvard and Brown, and Center of Biomedical Research Excellence (COBRE) on Opioids and Overdose scholar awards. Notably, I have participated as a reviewer and chair for >100 scientific grant reviews / study sections at NIH, CDC, California HIV/AIDS Research Program (CHRP), Harvard, Brown and the University of Washington Centers for AIDS Research (CFAR), amfAR Foundation for AIDS Research, and many others.

ADDITIONAL RESEARCH CONTRIBUTIONS. I have had several invitations to participate in the National Institute of Allergy and Infectious Disease funded biomedical clinical trials networks as an investigator and member of protocol development committees: the HIV Prevention Trials Network (HPTN063, HPTN061), HIV Vaccine Trials Network (HVTN505), Adolescent Medicine Trials Network for HIV/AIDS Interventions (ATN), and Center for AIDS Research Network of Integrated Clinical Systems (CNICS). For these, I contribute substantially as an expert in the areas of epidemiology, behavioral science, clinical trial design / methods, and scholarship. For example, I was a member of the protocol development team and Co-I for [HPTN 063](#) (Chair: Dr. Steven Safren) – a proposal to develop international prevention trials for HIV-infected individuals (heterosexual women and men, and men who have sex with men) in care settings in Zambia, Thailand, and Brazil.

I am also a member of the protocol development team and co-I for three Adolescent Medicine Trials Network (ATN) for HIV/AIDS Interventions studies to: 1) develop and pilot test a smartphone, location-based app to facilitate routine HIV and STI testing, identify unknown HIV infections, and optimize adherence and retention in care for at risk youth (PIs: Drs. Biello and Mayer), 2) examine the efficacy--in a full scale RCT--of the app described above, and 3) determine the efficacy of "PrEP Steps," and nurse delivered intervention to promote uptake and adherence to PrEP for adolescent racial and ethnic minority MSM across three ATN sites.

SUMMARY LIST OF RESEARCH GRANTS RECEIVED AS PI

Please Note: this list does not include grants for which I have been Co-I or primary mentor

FUNDING AGENCY & GRANT NUMBER	YEARS	TOTAL \$ AMOUNT AWARDED
National Heart, Lung, and Blood Institute (U01 HL146333-01) – PI	2020–2028	\$33,612,498
National Institute of Allergy and Infectious Diseases (U01 AI156875-01) – PI	2021–2026	\$8,800,000
National Institute of Nursing Research (R01 NR020227-01A1) – PI	2021–2026	\$3,916,964
National Institute of Mental Health (R34 MH126894-01) – PI	2021–2024	\$631,594
National Institute of Mental Health (R34 MH122499-01A1) – PI	2020–2023	\$647,373
National Institute on Drug Abuse (R01DA042805-01A1 + diversity supplement + NIDA Summer Internship Mentor Program Grant) – PI	2017–2023	\$3,364,194
National Institute of Mental Health (R01MH100627-01A1) – PI	2014–2021	\$2,907,259
National Institute of Mental Health (R56MH113684-01A1) – PI	2019–2021	\$299,953
National Institute of Mental Health (R34MH110369-01 + diversity supplement) – PI	2016–2020	\$879,349
National Institute of Nursing Research (R01NR017098-01) – PI	2016–2023	\$3,121,783

National Institute of Child Health and Human Development (R01HD075655-01A1) – PI	2013-2018	\$3,012,674
National Institute of Mental Health (R01MH094323-02) – PI	2011-2016	\$4,530,580
National Institute of Mental Health (R34MH104072-01) – PI	2014-2018	\$672,360
Brown University, OVPR Research Seed Fund Award– PI	2016-2018	\$50,000
Office of the Vice President for Research Grant Awards, Brown University– PI	2016-2018	\$75,000
Watson Institute Collaboration Grants, Brown University– PI	2016-2017	\$10,000
National Institute on Drug Abuse (R21DA039857-01) – PI	2015-2018	\$376,989
Centers for Disease Control and Prevention (CDC) Vietnam (U01VN0022924-01) – PI	2012-2013	\$1,200,000
CDC / National Center for HIV, Viral Hepatitis, STDs, and TB Prevention (U01PS0053307-01) – PI	2012-2015	\$1,500,000
National Institute on Drug Abuse (R21DA03372-01) – PI	2011-2015	\$464,589
National Institute on Drug Abuse (R21DA035113-01A1) – PI	2013-2016	\$465,300
National Institute on Drug Abuse (R34DA031028-01 + supplement) – PI	2011-2015	\$741,255
National Institute of Mental Health (R21MH095535-01) – PI	2011-2014	\$451,806
Massachusetts Department of Public Health, Div. of Infectious Diseases– PI	2006-2012	\$1,050,000 (\$150,000/year)
Rhode Island Department of Health, Division of Preparedness, Response, Infectious Disease and Emergency Medical Services – PI	2016-2018	\$740,000
National Institute on Drug Abuse (R03DA023393-01) – PI	2008-2010	\$150,700
Lenovo Hope Fund of Triangle Community Foundation– PI	2008-2010	\$10,000
Harvard Catalyst Pilot Grant (UL1RRO25758-01) – PI	2010-2012	\$75,000
CDC Vietnam– PI (U01VN0022924-01) – PI	2012-2014	\$475,000
Harvard Center for AIDS Research (P30 AI060354) – PI	2011-2014	\$100,000
Harvard Center for AIDS Research (I received two of these) (P30 AI060354) – PI	2011-2014	\$100,000
Ragon Institute of MGH, MIT and Harvard– PI	2011-2014	\$400,000
Gilead Sciences Inc. (unrestricted) – Co-PI	2007-2009	\$200,000
National Institute on Mental Health (R21MH085319-01) – Co-PI	2008-2011	\$455,200
National Institute on Mental Health (R21MH356025-01) – Co-PI	2008-2011	\$465,800
HIV Prevention Trials Network / NIH (HPTN 063) – Co-PI	2011-2015	\$3,250,000
Adolescent Trials Network / NIH (ATN 158) – Co-PI	2019-2022	\$1,200,000
National Institutes of Health, HIV Vaccine Trials Network (HVTN 505 supplement) – Co-PI	2010-2012	\$1,500,000

Research Funding: Detailed Description

Current Funded Grant Awards as Principal Investigator (Total Award Amount Provided)

[CURRENT FUNDING: CLICK HERE](#)

2021-2026	Role: PI (MPI: Kuhns, Belzer)	National Institute of Allergy and Infectious Diseases (U01 AI156875-01)	\$8,800,000
Digital, Limited Interaction Efficacy Trial of LifeSkills Mobile to Reduce HIV Incidence in Young Transgender Women			
We propose to conduct an RCT to assess the efficacy of the LifeSkills Mobile intervention in comparison to a standard of care (SOC) condition among 5,000 YTW recruited online. The primary outcome is reduction in incident HIV infections; a secondary outcome is total condomless anal/ vaginal sex acts occurring in the context of insufficient PrEP protection. At baseline and every 6 months through 48 months, enrolled participants will complete an online survey sent via a link to their mobile phone and will be mailed an OraQuick In-Home HIV Test kit. We will also estimate the total and incremental costs of the LifeSkills Mobile intervention relative to SOC, from healthcare sector and societal perspectives. Real World Applicability. Given inherent limitations to widespread dissemination of face-to-face, group-based interventions, LifeSkills Mobile extends the potential reach of the intervention via the development of a mobile version, and provides content on, and access to, current biobehavioral prevention technologies (e.g., PrEP).			
2021-2026	Role: PI (MPI: Biello, Chan)	National Institute of Nursing Research (R01 NR020227-01A1)	\$3,916,964
Efficacy of a PrEP uptake & Adherence Intervention among male sex workers using a 2-stage randomization design			
We propose to test the efficacy of the "PrEPare for Work" package in the Greater Providence area and in Los Angeles County using a two-stage randomization design. Stage 1: 500 MSW will be equally randomized to receive either the "PrEPare for Work Stage 1 intervention" (strength-based case management and facilitated PrEP linkage) or standard of care to evaluate successful PrEP uptake (verified by real-time tenofovir urinalysis; prescription data) within 2 months. Stage 2: those who initiate PrEP (n~156; ~55% from Stage 1 intervention arm and ~20% from Stage 1 SOC arm) will be equally re-randomized to the "PrEPare for Work Stage 2 intervention" (1-on-1 skills training, problem solving, and motivational interviewing adherence counseling and personalized, daily text messaging reminders) or SOC to assess PrEP adherence (tenofovir concentration in hair sample) and retention in PrEP care (appointments attended) over 12 months. We will also examine the degree to which improvements in PrEP uptake and adherence occur in the context of the conceptual mediators (e.g., PrEP motivation, self-efficacy) and moderators (e.g., race/ethnicity, substance use, perceived HIV risk) of the intervention. Intervention cost-effectiveness will be assessed.			
2021-2024	Role: PI (MPI: Biello)	National Institute of Mental Health (R34 MH126894-01)	\$631,594
Making universal, free-of-charge antiretroviral therapy work for sexual and gender minority youth in Brazil			
Phase 1: Refine and enhance participant acceptability of the intervention and resolve any issues with intervention delivery/implementation; this will be achieved by convening and obtaining feedback from our youth community advisory board throughout this phase and subsequent phases; and by conducting an open-phase pilot with up to 12 SGM youth, with post-intervention exit interviews, as well as obtaining feedback from our youth community advisory board throughout this and subsequent phases. Phase 2: Examine, in a pilot randomized controlled trial, the feasibility, acceptability and potential impact of the proposed intervention among 72 SGM youth who will be equally randomized to the intervention or a time- and attention-matched control condition with standard of care. The outcomes are improved ART adherence (Wisepill, pharmacy assessment and self-report), retention in care and viral load suppression. Study assessments will be conducted at baseline, 3- and 6-months.			

2020-2023	Role: PI (MPI: Biello)	National Institute of Mental Health (R34 MH122499-01A1)	\$647,373
Developing and Pilot Testing an Adaptive Intervention to Facilitate PrEP Uptake and Maximize PrEP Adherence among At-Risk Transgender Women			
Initially, we will continue to work with community members and a community advisory board to further inform the “PrEP N’ Shine” intervention (Aim 1a). Next, we will iteratively refine the intervention, in an open pilot trial with exit interviews, with up to 10 TGW to enhance participant acceptability, feasibility of study procedures, and finalize study protocols (Aim 1b). For Aim 2, we will conduct a pilot randomized controlled trial (RCT) of the “PrEP N’ Shine” intervention using a 2-stage randomization design: For Stage 1, we aim to randomize 106 TGW who are candidates for PrEP to receive either the peer-led SBCM for PrEP linkage and uptake or standard of care (SOC; i.e., PrEP referrals only). For Stage 2, those from Stage 1 who initiate PrEP (n=44), regardless of their randomization condition, will then be equally re-randomized to either the resource-efficient, adaptive “stepped-care” intervention to optimize PrEP adherence (initially TGW in this arm will receive daily 2- way gender-affirming text message reminders, and then those continuing to have poor adherence will receive the 4 more intensive counseling sessions) or the SOC condition.			

2017-2023	Role: PI (MPI: Safren)	National Institute on Drug Abuse (R01DA042805-01A1)	\$3,359,194
Integrated behavioral activation and HIV risk reduction counseling for MSM with stimulant abuse			
This application builds off of our successful formative work and is designed to assess the efficacy, in a three-arm randomized controlled trial (RCT), of Project IMPACT—a behavioral intervention to reduce high-risk sex in MSM with stimulant use disorder who are at risk for HIV acquisition. The intervention incorporates risk reduction counseling with behavioral activation (BA) to help participants re-engage in enjoyable and meaningful life activities not involving drugs. Behavioral activation is an evidence-based, easy to administer, cognitive behavioral approach to treat depression and other problems that focuses on helping individuals reengage in activities that generate feelings of enjoyment (i.e., mastery and pleasure). We chose this strategy for MSM with stimulant use disorder because our formative work revealed that MSM who abuse stimulants report becoming unable to enjoy activities that they previously enjoyed as a result of ongoing stimulant use. This lack of enjoyment (i.e., anhedonia, one of the core symptoms of depression) in activities that do not involve stimulant use or sex contributes to the continued use of stimulants and potentially unsafe sex. We developed and openly field-tested this intervention in a NIDA-funded non-randomized pilot (R03 DA023393), and, subsequently, conducted a NIDA-funded pilot RCT (R34 DA031028) of this intervention compared to a standard of care condition (SOC) and found it to be feasible, acceptable, and successful at reducing both condomless anal sex and stimulant use.			
Diversity supplement to explore stimulant use among MSM in Vietnam [Harry Jin, PhD, former doctoral advisee at Brown, 2019-2020, NIMH, \$150,000 (included above in total costs)]			

2020-2028	Role: PI (MPI: Detels)	National Heart, Lung, and Blood Institute (U01 HL146333-01)	\$33,612,498
Los Angeles CRS for the MACS/WIHS combined cohort study			
The Multicenter AIDS Cohort Study (MACS) / Women’s Interagency HIV Study (WIHS) Combined Cohort Study (MACS/WIHS-CSS) is a collaborative research effort that aims to understand and reduce the impact of chronic health conditions—including heart, lung, blood, and sleep (HLBS) disorders—that affect people living with HIV. For decades, the National Institute of Allergy and Infectious Diseases, part of the National Institutes of Health (NIH), has supported the separate MACS and WIHS cohort studies. MACS was a study of gay and bisexual men, while WIHS was a study of women who had other risk factors for HIV. The Multicenter AIDS Cohort Study is the first (1984) and largest study specifically created to examine the natural history of AIDS. In 2019, the NHLBI became the primary steward of the new MACS/WIHS-CSS. The Combined Cohort Study includes continuing participants from the earlier studies. We are also recruiting new participants.			

2014-2021	Role: PI (MPI: Safren)	National Institute of Mental Health (R01MH100627-01A1)	\$2,907,259
Fostering resilience to psychosocial and HIV risk in Indian MSM			
<p>This is a randomized controlled efficacy trial of an HIV risk reduction group and individual counseling intervention that uses principles of cognitive behavioral therapy (e.g., psychoeducation, problem solving) and emphasizes the importance of self-acceptance among MSM in Chennai and Mumbai, India. Both the intervention and standard of care (SOC) comparison conditions receive HIV and STI counseling and testing at each assessment timepoint (baseline, 4-, 8-, and 12-months). The co-primary outcomes include STI incidence and reductions in condomless anal sex acts. The incremental cost-effectiveness of the intervention relative to SOC is being assessed, considering individual and public health benefits as well as downstream cost-savings due to HIV infections averted (both transmission and acquisition).</p>			

2019-2020	Role: PI (MPI: Kuhns)	National Institute of Mental Health (R56MH113684-01A1)	\$299,953
Mobile Adaptation and Testing of a Uniquely Targeted HIV Intervention for Young Transgender Women			
<p>The goal of this study is to adapt an efficacious, group-based HIV prevention intervention (LifeSkills) for young transgender women (ages 16-29) at risk for HIV acquisition or transmission to a mobile (web-based) platform. In our previously funded RO1, we demonstrated efficacy of the intervention compared to a standard of care control. Once we complete the R56 and have adapted LifeSkills to a mobile platform, we will resubmit the original RO1 application (which scored a 12th percentile but was not selected for funding) with the ultimate goal of conducting a full-scale RCT to determine the efficacy of the adapted intervention in decreasing HIV sexual risk.</p>			

2016-2020	Role: PI (MPI: Biello/Chan)	National Institute of Mental Health (R34MH110369-01 + diversity supplement)	\$879,349
Optimizing PrEP uptake & adherence among MSWs using a 2-stage randomization design			
<p>Informed by our formative and programmatic work with male sex workers (MSWs) in the US, we designed the “PrEPare for Work” package that includes two components: 1) peer-led strengths-based case management (SBCM) for PrEP uptake, and 2) a counseling and problem-solving PrEP adherence intervention that addresses individualized barriers to optimal use. We will conduct a pilot RCT of “PrEPare for Work” using a two-stage randomization design. <u>Stage 1</u>: 106 MSW will be equally randomized to receive either the peer-led SBCM or standard of care (i.e., passive referrals only) for engagement with our existing PrEP clinic. <u>Stage 2</u>: Those from stage 1 who initiate PrEP (n=44), regardless of stage 1 randomization condition, will then be equally randomized to either the “PrEPare for Work” adherence intervention or standard of care comparison condition. In stage 1, the primary outcome is PrEP uptake (initial prescription filled, time-to-PrEP uptake). In stage 2, the primary outcomes are PrEP adherence (% of blood-drug ARV levels, hair samples for ARV, and self-report) and retention in PrEP care at 6 months.</p> <p>Diversity supplement to explore PrEP interest among MSW’s clients [Alberto Edeza, PhD candidate at Brown, 2017-2020, NIMH, \$150,000 (included above in total costs)]</p>			

2016-2022	Role: PI (MPI: Garofalo)	National Institute of Nursing Research (1R01NR017098-01)	\$3,121,783
Adaptive intervention strategies trial for strengthening adherence to antiretroviral HIV treatment among youth			
<p>The current study is to test the efficacy of a stepped-care “adaptive” ART adherence intervention (“Positive STEPS”) for HIV infected adolescents and young adults, ages 16 to 29. Stepped care is a healthcare delivery model in which the least resource intensive part of an intervention is delivered first, and only those who do not improve then receive the high intensity, more resource intensive part of an intervention. The conceptual model is based on our formative work that led to the development of a theoretically-driven intervention curriculum grounded in the social and contextual realities of HIV infected adolescents. Our intervention begins with 2-way daily text messaging aimed at improving ART adherence. For many adolescents (~60% from our pilot RCT), text messaging is not sufficient to overcome the barriers to ART adherence. These individuals will then receive the more intensive intervention, which is based on general principles of cognitive-behavioral therapy. Informational, problem solving, and cognitive-behavioral “steps” are addressed over 5 counseling sessions with a masters-level therapist and incorporates digital video vignettes.</p>			

Completed Funded Grants as Principal Investigator (Total Award Amount Provided)

2013-2018	Role: PI (MPI: Stephenson / Garofalo)	National Institute of Child Health and Human Development (R01HD075655-01A1)	\$3,012,674
CVCTPlus: A couples-based approach to linkage to care and ARV adherence			
<p>Studies suggest that the majority of incident HIV infections among MSM are attributable to sex with a main male sex partner; however, HIV prevention interventions that target male-male couples are lacking. As adherence to ART is modifiable, and levels of peer support have been shown to increase ART adherence, this current study proposes to use CVCT combined with dyadic adherence counseling (“CVCTPlus”) to improve linkage to care, retention in care, ART adherence and viral suppression among 250 (total N = 500) HIV serodiscordant male-male couples across Atlanta, Boston, and Chicago. Each couple (125 per arm) will be followed for 48 months, with study visits every six months.</p>			

2016-2020	Role: PI (MPI: Biello/Chan)	National Institute of Mental Health (R34MH110369-01 + diversity supplement)	\$879,349
Optimizing PrEP uptake & adherence among MSWs using a 2-stage randomization design			
<p>Informed by our formative and programmatic work with male sex workers (MSWs) in the US, we designed the “PrEPare for Work” package that includes two components: 1) peer-led strengths-based case management (SBCM) for PrEP uptake, and 2) a counseling and problem-solving PrEP adherence intervention that addresses individualized barriers to optimal use. We will conduct a pilot RCT of “PrEPare for Work” using a two-stage randomization design. <u>Stage 1</u>: 106 MSW will be equally randomized to receive either the peer-led SBCM or standard of care (i.e., passive referrals only) for engagement with our existing PrEP clinic. <u>Stage 2</u>: Those from stage 1 who initiate PrEP (n~44), regardless of stage 1 randomization condition, will then be equally randomized to either the “PrEPare for Work” adherence intervention or standard of care comparison condition. In stage 1, the primary outcome is PrEP uptake (initial prescription filled, time-to-PrEP uptake). In stage 2, the primary outcomes are PrEP adherence (% of blood-drug ARV levels, hair samples for ARV, and self-report) and retention in PrEP care at 6 months.</p> <p>Diversity supplement to explore PrEP interest among MSW’s clients [Alberto Edeza, PhD candidate at Brown, 2017-2020, NIMH, \$150,000 (included above in total costs)]</p>			

2011-2016	Role: PI (MPI: Garofalo)	National Institute of Mental Health (R01MH094323-02)	\$4,530,580
HIV prevention intervention for young transgender women			
<p>The purpose of this study is to test the efficacy of a uniquely targeted HIV risk reduction intervention for young transgender women (YTW), ages 16 to 24, at risk for HIV acquisition or transmission. We will enroll 375 at risk YTW, ages 16-24; two-fifths of the sample (N=150) randomized to the intervention will participate in the 6-session group-based and manualized Life Skills intervention; two-fifths (N=150) will be randomized to the standard-of-care condition; and one-fifth will be randomized to the time-matched attention control condition (N=75) and receive standard health promotion information in a group-based multi-session format.</p> <p>Competitive supplement added, 2014-2015, NIMH, \$100,000 (included above in total costs) This supplement was to adapt the Life Skills intervention to transgender MSM.</p>			

2014-2018	Role: PI (MPI: Clark / Reisner)	National Institute of Mental Health (R34MH104072-01)	\$672,360
TransPrEP: Social network-based PrEP adherence for transgender women in Peru			
<p>This study is to develop a social network-based intervention to promote PrEP adherence among PrEP naïve transgender women at risk for HIV infection in Lima, Peru. Once the intervention is developed through multiple forms of qualitative methods, an RCT pilot will be conducted randomizing by social network-based clusters of transgender women. All participants will be provided with daily Truvada for the study period. The intervention includes a mix of individual counseling, group (peer) based workshops, and social network interactions.</p>			

2016-2018	Role: PI	Brown University, OVPR Research Seed Fund Award	\$50,000
Optimizing PrEP uptake & adherence among stimulant using MSM			
<p>This study is to further develop and pilot test– in a two-arm randomized controlled trial (RCT)–a PrEP adherence intervention for stimulant-abusing MSM who are at risk for HIV infection against a standard of care condition. Informed by our formative research and addiction treatment experience with stimulant-abusing MSM, our interdisciplinary investigator team designed the “Pepped-on-PrEP” package–a counseling and problem-solving PrEP adherence intervention that addresses stimulant-abuse, and associated factors, as barriers to optimal PrEP adherence. This pilot-RCT will assess the feasibility/acceptability of the “Pepped-on-PrEP” package, as well as preliminary efficacy, laying the groundwork for the next step of intervention testing–a full-scale efficacy trial.</p>			

2016-2018	Role: PI	Office of the Vice President for Research Resubmission Grant Awards, Brown University	\$60,000
<p>Resubmission Grant Awards For:</p> <ol style="list-style-type: none"> 1) “Integrated behavioral activation and HIV risk reduction counseling for MSM with stimulant abuse” (1R01DA042805-01) 2) “Adaptive intervention strategies trial for strengthening adherence to HIV treatment among youth” (1R01MH111632-01) 3) “Optimizing PrEP uptake & adherence among MSWs using a 2-stage randomization design” (1R34MH110369-01) 4) “Mobile Adaptation and Testing of a Uniquely Targeted HIV Intervention for Young Transgender Women” (1R01MH113684-01) 			
<p>The OVPR Grant Resubmission Award program provides support (\$15,000 per application) for investigators to improve an already well-scored (30th percentile or better) proposal for re-submission.</p>			

2016-2017	Role: PI (MPI: Biello)	Watson Institute Collaboration Grants, Brown University	\$10,000
Exploratory research to reduce health inequalities among HIV positive adolescents in Brazil			
This is an exploratory research study to inform an intervention for HIV infected adolescents, ages 15 to 24, in Rio de Janeiro, Brazil. We will conduct formative research with community advisory board members, key informants, and HIV infected adolescents to inform the adaptation of a behavioral intervention for improving adherence to antiretroviral therapy among Brazilian youth. The resulting integrated counseling- and technology-based HIV medication adherence intervention package (called "Passos Positivos") will address inequalities among diverse ethnicities, sexual and gender minorities, and class by addressing the particular structural (e.g., transportation to clinic visits, perceived healthcare discrimination) and individual-level (e.g., social support, psychosocial problems) barriers to adherence faced by adolescents in this setting. Passos Positivos will serve as the basis for a new NIH R application.			

2015-2018	Role: PI (MPI: Grelotti)	National Institute on Drug Abuse (R21DA039857-01)	\$376,989
Epidemiology of HIV antiretroviral exposure from whoonga use in South Africa			
Some people are exposed to HIV antiretroviral medication through recreational use. This emerging phenomenon poses a significant obstacle to efforts to address the global HIV pandemic. Any antiretroviral exposure from recreational use may increase rates of antiretroviral-resistant HIV strains. This and any diversion of antiretroviral medication for recreational use will increase the cost of delivering this life-saving care. The proposed research will document antiretroviral exposure from the use of whoonga, a drug cocktail in South Africa that may contain antiretroviral medication and illicit drugs. It will also inform future research to link recreational antiretroviral use to antiretroviral resistance among HIV-infected individuals who have yet to initiate HIV treatment, as well as promote the design of culturally appropriate interventions.			

2012-2015	Role: PI	Centers for Disease Control and Prevention / National Center for HIV, Viral Hepatitis, STDs, and TB Prevention (U01PS0053307-01)	\$1,500,000
Testing brief messages for Black & Latino MSM: emerging HIV prevention options			
This study included Black and Latino MSM in three major US cities—Chicago, Fort Lauderdale, and Kansas City—with variation in HIV serostatus and sexual risk behavior. Brief health messages of biomedical (e.g., PrEP, PEP, ARVs for treatment) and behavioral (e.g., condoms, serosorting) HIV prevention options were created through extensive qualitative interviews, key informant interviews, and focus groups with these populations. These data were used to refine the messages per participant and expert feedback, and to ensure comprehension of information / health literacy, clarity, increase in knowledge, and potential to influence behaviors and attitudes. Through an iterative approach, the messages were further refined and finalized. The final phase tested the brief messages (delivered via text message) on health behavior change among 1500 Black and Latino MSM in the same three cities. The primary aim of this project was to assess changes in behaviors and attitudes, feasibility of message delivery, and acceptability of message content.			

2013-2016	Role: PI (MPI: Biello)	National Institute on Drug Abuse (R21DA035113-01A1)	\$465,300
HIV risk for MSM sex workers: A social, sexual and drug network simulation study			
This is a longitudinal epidemiological study of MSM sex worker networks in Massachusetts to identify protective and risk factors that affect HIV transmission dynamics. Longitudinal data will enhance our understanding of how contemporary social, sexual, and drug abuse network characteristics contribute to increased HIV and STI spread among MSM sex workers. The information gained will be used to develop a simulation model to examine which prevention modality (e.g., PrEP, etc.) would impact decreased HIV incidence most successfully.			

2011-2015	Role: PI	National Institute on Drug Abuse (R21DA03372-01)	\$464,589
Technology for HIV prevention among vulnerable men in India			
Male sex workers (MSWs) are at particularly elevated risk for HIV infection and represent an important bridge population potentiating the HIV/AIDS epidemic in India. The first six months of this study were used as an intervention development and refinement phase. We first conducted qualitative interviews (N = ~20 at both the Chennai and Mumbai study sites) and focus groups to inform the content of the intervention. We then conducted an open pilot of the intervention with up to 10 MSWs (5 per study site) and assessed initial feasibility and acceptability. Next we revised the intervention based on these data and worked out any remaining methodological or intervention-development details. The next 18 months were to be a RCT pilot of the intervention. One hundred (80 completers: 40 per study site) MSWs at risk for transmitting or acquiring HIV were to be randomized to either 1) the mobile phone delivered counseling intervention and standard of care HIV/STI counseling and testing or 2) the control condition-standard of care HIV/STI counseling and testing alone.			

2011-2015	Role: PI	National Institute on Drug Abuse (R34DA031028-01)	\$741,255
Behavioral activation and HIV risk reduction for MSM with crystal meth abuse			
Problematic crystal methamphetamine ("meth") use is a prevalent and treatment refractory problem in MSM, and highly associated with HIV sexual risk behavior. MSM who are HIV-uninfected and meet DSM-IV criteria for a diagnosis of meth (amphetamine) abuse/dependence will be randomized. The two arms included (1) "BAT-RR", behavioral activation therapy and risk reduction counseling which lasted 10 sessions; and (2) the comparison condition, the equivalent risk reduction counseling only for 2 sessions. Participants were followed for 6 months post-randomization. Main outcomes included sexual risk (primary) and meth use (secondary). Additional secondary outcomes included increases in pleasurable (but safe) activities, increases in HIV information, motivation re: sexual safety, and behavioral skills, decreases in depressive symptoms severity, and decreases in polysubstance use.			

2011-2014	Role: PI (MPI: Mitty)	National Institute of Mental Health (R21MH095535-01)	\$451,806
Understanding PrEP implementation among club drug using MSM			
The use of the antiretrovirals tenofovir emtricitabine as pre-exposure prophylaxis (PrEP) is a novel biomedical HIV prevention strategy to help decrease HIV spread. We propose to conduct qualitative interviews (phase 1) and a larger quantitative assessment (phase 2) among HIV-uninfected MSM who report recent club drug use and concurrent sexual risk (in the last 3 months) to gain a better understanding of the facilitators and barriers to PrEP implementation in this high-risk group. All participants will be recruited from bars, nightclubs, and dance clubs that are known to attract gay and bisexual men and other MSM where club drug use is occurring.			

2006-2012	Role: PI	Massachusetts Department of Public Health, Division of Infectious Diseases	\$1,050,000 (\$150,000/year)
HIV prevention among sexual and gender minorities at risk for HIV infection in MA			
These projects changed yearly and were reviewed competitively through a proposal process with MDPH. Prior studies include: 1) Monitoring MSM trends in incidence and prevalence of STDs through the development of an enhanced STD surveillance system; 2) Social and sexual networks, knowledge of STIs and HIV, perceptions of risk for disease, and barriers and motivators to accessing care from the perspective of Black MSM in the greater Boston area; and 3) Assessing how sexual environmental contexts impact sexual risk and HIV transmission among MSM in Massachusetts.			

2008-2010	Role: PI	National Institute on Drug Abuse (R03DA023393-01)	\$150,700
Behavioral activation and HIV risk reduction for MSM with crystal meth abuse			
This pilot study of 20 individuals sought to develop a behavioral treatment to reduce sexual risk taking in MSM who abuse crystal methamphetamine and are at risk for HIV acquisition. The treatment incorporates state of the art behavioral risk reduction counseling approaches (e.g. information-motivation-behavioral skills building) with 10 sessions of behavioral activation to treat depression. This grant was the major preliminary data for my NIDA funded R34.			

2010-2012	Role: PI (MPI: Colby)	Harvard Catalyst Pilot Grant (UL1RRO25758-01)	\$75,000
Sexual health needs of male sex workers in Ho Chi Minh City, Vietnam			
The aim of this study was to conduct formative research to better understand risk and protective factors for HIV/STI transmission among MSW in Ho Chi Minh City. In the first phase, we conducted qualitative interviews with MSW to better understand local terminology, cultural factors, reasons for engaging in sex work, HIV risk dynamics, and barriers and facilitators of HIV testing/care. Second, we used the information gained through the qualitative interviews to design a larger, culturally responsive, quantitative assessment. These findings were used to develop a specific intervention designed to decrease HIV/STI risk behavior among MSW in Vietnam.			

2008-2010	Role: PI	Lenovo Hope Fund of Triangle Community Foundation	\$10,000
Reach 50 in 2008-2009 through Hope Web Design			
This application was a competitive RFP through the Lenovo Hope Fund. Reach 50 in 2008/2009 provided free, personalized websites to 50 individuals who were diagnosed with cancer (no specific etiology/diagnosis) and who were 17 years of age or younger at the time that services were requested.			

2012-2014	Role: PI (MPI: Colby)	Centers for Disease Control and Prevention - Vietnam	\$475,000
Group based HIV prevention intervention for MSW in Ho Chi Minh City, Vietnam			
100 MSW from Ho Chi Minh City were enrolled in an open pilot trial of a group-based manualized HIV prevention intervention, focused on barriers to HIV risk reduction and problem solving/skills building. The intervention consisted of 4 group sessions facilitated by trained MSM peer health educators. Participants completed a behavioral assessment battery and HIV testing at baseline, 3-, and 6-months. The study assessed feasibility, acceptability, and reductions in sexual risk behavior.			

2011-2014	Role: PI	Harvard Center for AIDS Research	\$100,000
Improving antiretroviral medication adherence among HIV-infected youth			
This study adapted the Life-Steps intervention designed by our group for HIV-infected adults to be responsive to the needs of HIV-infected adolescents. Following an intervention development phase involving qualitative interviews with 30 adolescents, we conducted an RCT pilot of the intervention among 30 HIV-infected adolescents. Participants' ARV use was monitored via Wisepill and they completed behavioral assessments at baseline, 3-, and 6-months. The study assessed feasibility, acceptability, and improved medication adherence.			

2011-2014	Role: PI (MPI: Mitty)	Harvard Center for AIDS Research	\$100,000
Sustaining effects of contingency management on stimulant use in HIV-infected persons			
We developed and implemented a combined contingency management (CM) and behavioral activation intervention aimed at HIV-infected individuals who are engaged in HIV care and currently dependent on crack, cocaine, or methamphetamine. Participants' (N = 10) acceptability and feasibility of intervention delivery were evaluated, as was the impact of the combined intervention on reductions in stimulant use, changes in HIV plasma viral load, increases in CD4 cell count, and improvements in ARV medication adherence. Biobehavioral assessments were completed at baseline, 3-, and 6-mo. mo			

Current Funded Grants as Co-Investigator or Site PI

([please note](#): I do not include training grants that I am the primary mentor; please see the academic advisee section below.)

2020-2025	Role: Site PI	National Institute of Mental Health (R01MH119919-01A1)
Brief Acceptance-based Retention Intervention for Newly Diagnosed HIV Patients		
The objective is to conduct a randomized controlled trial to assess the efficacy of a brief, 2-session acceptance-based behavioral therapy intervention to enhance retention in HIV care. The central hypothesis is that participants' informed disclosure of HIV status to members of their support system, facilitated through increased acceptance of HIV status early in medical care, will increase their longitudinal commitment to care.		

2017-2021	Role: Co-Chair (Protocol Chair: Mayer)	Adolescent Medicine Trials Network (ATN) for HIV/AIDS Interventions/ National Institute of Child Health and Human Development (U19HD089881-01; R01 Sub-Project)
Life-Skills for PrEP among HIV uninfected young MSM		
This research is to develop a nurse delivered behavioral counseling intervention to promote PrEP adherence among PrEP naïve young MSM at risk for HIV infection. Once the intervention is developed through multiple forms of qualitative methods, an RCT pilot will be conducted. All participants will be provided with daily Truvada for the study period.		

2016-2021	Role: Co-I (PI: Biello)	Adolescent Medicine Trials Network (ATN) for HIV/AIDS Interventions/ National Institute of Child Health and Human Development (U19HD089881-01; R01 Sub-Project)
COMPARE (comparison of men's prevention apps to research efficacy)		
As part of the UNC/Emory Center for Innovative Technology (iTech) across the prevention and care continuum, the efficacy of the MyChoices app and the LYNX app to increase HIV testing and PrEP uptake among young men who have sex with men will be tested in a R01-equivalent three-arm RCT		

2020-2025	Role: Co-I (PI: Biello/Bazzi)	National Institute on Drug Abuse (R01DA051849-01)
Efficacy of a community-based PrEP uptake intervention for people who inject drugs in the US Northeast		
This study will test the efficacy of a brief, multi-component behavioral intervention delivered to people who inject drugs (PWID) by highly trained PrEP Navigators embedded within syringe service programs to increase PrEP use among PWID, thus decreasing HIV incidence in this socially-marginalized population and reducing onward transmission to injecting and sexual partners.		

Completed Funded Grants as Co-I and Co-PI

2010-2020	Role: Co-I (PI: Crane)	National Institute of Mental Health (U01AR057954-01)
Patient reported outcomes in routine clinical care of patients infected with HIV		
This project's goal is to improve medical care processes and patient outcomes in clinical practice settings using routine collection of patient-reported outcomes (PROs) administered by computerized adaptive tests (CATs). This project will leverage extensive resources from the Centers for AIDS Research (CFAR) Network of Integrated Cohort Studies (CNICS); a consortium of 9 clinical research sites providing care for a well-characterized and demographically heterogeneous cohort of >20,000 HIV-infected individuals.		

2016-2019	Role: Co-I/Mentor (PI: Nunn/Chan)	National Institute of Mental Health (R34MH109371-01A1)
PrEP uptake, adherence, and retention for African American MSM in Mississippi		
As part of the UNC/Emory Center for Innovative Technology (iTech) across the prevention and care continuum, the efficacy of the MyChoices app and the LYNX app to increase HIV testing and PrEP uptake among young men who have sex with men will be tested in a R01-equivalent three-arm, six site randomized controlled trial.		

2012-2016	Role: Co-I (PI: Mayer)	National Institute of Mental Health (R34MH095584-01)
Optimizing antiretroviral-based prevention by enhancing PrEP adherence in MSM		
This research is to develop a nurse delivered behavioral counseling intervention to promote PrEP adherence among PrEP naïve MSM at risk for HIV infection. Once the intervention is developed through multiple forms of qualitative methods, an RCT pilot will be conducted. All participants will be provided with daily Truvada for the study period.		

2011-2017	Role: Co-I (PI: O'Cleirigh)	National Institute of Mental Health (R01MH095624-01)
HIV prevention and trauma treatment for MSM with childhood sexual abuse histories		
This two-arm RCT is to test the efficacy of a psychosocial intervention that addresses intersecting epidemics among MSM: HIV and childhood sexual abuse (CSA). The experimental condition integrates sexual risk reduction counseling with Cognitive Processing Therapy for Sexual Risk (CPT-SR). CPT-SR has been specifically piloted on MSM with CSA histories and sexual risk to reduce interfering negative CSA-related thoughts about self, to more accurately appraise sexual risk, and to decrease avoidance of sexual safety considerations, and through rehearsals of sexual safety behaviors. The active time-matched comparison condition is risk reduction counseling plus supportive psychotherapy.		

2008-2014	Role: Co-I / Member of the Protocol Development Team (PI/Chair: Safren)	National Institutes of Health, HIV Prevention Trials Network: HPTN063
Preparing for international prevention trials involving HIV+ individuals in care settings		
We conducted preparatory research needed to design a behavioral intervention to decrease sexual transmission risk behaviors in HIV-infected individuals in care and sought to determine whether a similar intervention structure can be used across various sexual risk groups (heterosexual men and women and MSM) and cultural settings. The sample was followed for 12 months and included 900 HIV-infected men and women in Africa, Asia, and Latin America, who had reported recent (within 3 months) HIV sexual transmission risk behavior.		

2007-2008	Role: Co-I (PI: Mayer)	National Institute of Mental Health (Supplement to R01MH68746-01)
Potential unintended consequences of PrEP use among MSM		
To understand the potential unintended consequences of the wider public discussion of the use of antiretrovirals for the prevention of HIV among HIV-uninfected men, we: (1) Recruited and screened a sample of 300 HIV-uninfected MSM using Respondent-Driven Sampling (RDS) and direct recruitment to obtain a diverse profile of the New England MSM who may be users or potential candidates for PrEP, and (2) explored in depth, using qualitative methods, the pre-existing knowledge, attitudes and behaviors of PrEP / PrEP use among 30 high-risk HIV- MSM.		

2007-2009	Role: Co-PI (PI: Mayer)	Gilead Sciences Inc.
Facilitators and barriers to routine HIV Testing among MSM in primary care		
This formative research project sought to gain a deeper understanding of the barriers and facilitators to implementing CDC guidelines on routine HIV testing in primary care settings. This was a foundation grant sponsored in full by Gilead Sciences.		

2008-2011	Role: Co-PI (PI: Mayer)	National Institute on Mental Health (R21MH085319-01)
Social/sexual networks of high risk married MSM in Mumbai		
The goals of this research were to better understand HIV/STI transmission dynamics and how social and sexual network characteristics differ and contribute to increased risk among MSM who are married to women vs. MSM who are not, and to assess their interest in participating in future HIV/STI prevention interventions (N = 300).		

2008-2011	Role: Co-PI (PI: Safren)	National Institute on Mental Health (R21MH356025-01)
Addressing psychosocial needs and HIV risk in Indian MSM		
This project aimed to develop an intervention that examined the impact of HIV stigma, discrimination, intimate partner violence and/or history of abuse or trauma on risk behavior and the rates of co-occurring mental illness, as well as drug or alcohol use among 100 MSM in Chennai, India. Such examination sought to develop and pilot test a multi-component intervention that addresses co-occurring disorders and other recognized substance use and their impact on increased sexual risk behavior. Biobehavioral assessments were completed at baseline, 3-, and 6-months.		

2010-2012	Role: Co-PI (PI: Kublin)	National Institutes of Health, HIV Vaccine Trials Network (HVTN)
HVTN behavioral and social science – Legacy 505 administrative supplement		
The goal of this project was to enhance and accelerate the recruitment of MSM into HIV vaccine clinical trials. This was accomplished through three main lines of work: (1) the development and implementation of an innovative HVTN 505 recruitment strategy targeting MSM to run concurrently with existing HVTN 505 recruitment efforts; (2) a survey of 1,800 MSM sampled from six HVTN 505 research locations assessing barriers and facilitators to enrolling in HIV vaccine clinical trials among this population; and (3) a comprehensive evaluation of the effectiveness of existing HVTN 505 recruitment strategies, of newly implemented recruitment strategies, and the efficacy of targeted population surveys to identify actionable barriers and facilitators to recruitment.		

Report of Teaching

Teaching of Students in Courses* (course evaluations available upon request)

2000 (Summer)	Primary Instructor History of Mathematics	Johns Hopkins University, Center for Talented Youth
2003 (Fall) 2004 (Fall)	Teaching Assistant EP 713: Introduction to Epidemiology	Boston University School of Public Health, Department of Epidemiology
2007-2015 (All Years)	Primary Instructor Behavioral Medicine and Adult Cognitive Behavioral Therapy Seminars Series	Harvard Medical School and Massachusetts General Hospital, Department of Psychiatry, Behavioral Medicine and Adult Cognitive Behavioral Therapy (CBT) Tracks
Spring 2007 Spring 2009 Spring 2011 Spring 2013 Spring 2015	Primary Instructor EPI 220: Psychiatric Diagnosis in Clinic and Community Populations	Harvard T.H. Chan School of Public Health, Department of Epidemiology
Spring 2016 Spring 2017 Spring 2018	Primary Instructor PHP 2360: Designing and Evaluating Public Health Interventions	Brown University School of Public Health
Summer 2016 Summer 2017	Primary Instructor PHP 2090: Scientific Writing, Research Presentation, and Proposal Development	Brown University School of Public Health
Spring 2019 Spring 2020	Primary Instructor PHP 2360: Developing & Testing Theory- Driven, Evidence Based Psychosocial and Behavioral Health Interventions	Brown University School of Public Health
Fall 2019	Primary Instructor PHP 2365: Public Health Issues in LGBT Populations	Brown University School of Public Health
Spring 2021 Spring 2022 Winter 2023	Primary Instructor EPI271: Psychiatric Epidemiology	UCLA Fielding School of Public Health

Winter 2022 Primary Instructor
 Winter 2023 PH200B: Foundations of Public Health -
 Epidemiology Section

UCLA Fielding School of Public Health

*For guest lectures in both undergraduate and graduate-level courses, please see “Invited Presentations / Guest Lectures” below.

Other Research Supervisory and Training Responsibilities

2007-present	Research/Academic Supervision. At any given time, I supervise and provide ongoing mentorship to 20+ research associates/project managers/study coordinators/research directors, graduate and undergraduate students, clinical interns, residents, fellows, and post-doctoral fellows in Epidemiology, Psychiatry or Behavioral and Social Health Sciences.	20 hours per week
2008-2015	I previously provided ongoing statistical methods and NIH grant / manuscript writing mentorship to MGH professionals outside of and within the Behavioral Medicine Service, including Drs. Andres Bedoya, Christina Psaros, Jessica Magidson, Allison Labbe, Sannisha Dale, Mike Boroughs, Adam Gonzalez, and Aaron Blashill (Behavioral Medicine), and Oliver Freudenreich (MGH First Episode and Early Psychosis Program). In 2008-2009, I worked under Dr. Rochelle P. Walensky (now the Director of the Centers for Disease Control and Prevention) and others from her team—within the Division of Infectious Diseases at MGH—analyzing data and writing manuscripts from the MGH USHER emergency room HIV testing trial.	2 hours per week
2015-2020	Provided NIH grant / scientific manuscript writing mentorship to faculty, post-doctoral fellows, and faculty within the Center for Health Equity Research and the Providence/Boston CFAR, Brown University.	10 hours per week

Formally Supervised Trainees (Harvard, Brown and UCLA)

*Denotes mentees that have been awarded federal research grants for which my role is a mentor/advisor.

<u>Duration</u>	<u>Advisee/Trainee</u>	<u>Mentorship Role</u>	<u>Current Position</u>
2007-2015	Sari L. Reisner, ScD*	Primary advisor/research mentor post-doctoral fellowship, Harvard T.H. Chan School of Public Health, Epidemiology; *Co-authored over 50 publications; led to successful NIH R34, RO3, RO1 PCORI grant, amfAR Grant, Dept of State Grant; Primary mentor Harvard CFAR Scholar grant	Assistant Professor of Pediatrics, Harvard Medical School; Assistant Professor of Epidemiology, Harvard School of Public Health
2009-2012	Ugochukwu Amanyeiwe, PhD, MD	Mentor as part of the USAID Global Health Fellows Program and HSPH	Community Care and Prevention Advisor
2010-2015	Douglas Krakower, MD*	Research mentorship *Co-authored 5 publications; led to successful NIH K grant	Assistant Professor of Medicine, Harvard Medical School

2011-2020	Katie Biello, PhD, MPH*	Primary advisor and research mentor for Post-Doctoral Fellowship in Global HIV Epidemiology, Harvard T.H. Chan School of Public Health; Research Scientist, Harvard T.H. Chan School of Public Health, Epidemiology; **Co-authored >40 publications; led to 2 R21s, an RO1 and an R34; Primary mentor on two CFAR Scholar grants (one at Harvard and one at Brown); Ongoing research mentorship.	Associate Professor of Epidemiology and Behavioral Social Health Sciences and Vice Chair, Brown University School of Public Health
2011-2014	Nadia Abuelezzam, ScD*	Research mentorship for Post-Doctoral Fellow, ID Epidemiology, Harvard T.H. Chan School of Public Health; Co-authored 2 publications under review; Mentor on Harvard CFAR Scholar Award	Assistant Professor of Health Sciences, Boston College, Chestnut Hill, MA
2011-2015	Amaya Perez-Brumer, PhD, ScM*	Research mentorship for ScM student at Harvard T.H. Chan School of Public Health **Co-authored 6 publications	Associate Professor, University of Toronto, Canada
2011-2013	Radha Rajasingham, MD	Research advisor **Co-authored 1 publication	Assistant Professor, Harvard Medical School/Beth Israel Deaconess Medical Center
2011-2015	Charlene Flash, MD*	Research advisor for Fellow at Harvard Medical School/Beth Israel Deaconess Medical Center **Co-authored 2 publications	Assistant Professor, Division of Infectious Disease, Baylor College of Medicine
2012-2017	Catie Oldenburg, MPH, ScD*	Primary advisor and dissertation committee for ScD graduate student, ID Epidemiology, Harvard T.H. Chan School of Public Health; *Co-authored >20 publications; Mentor on Harvard CFAR award	Associate Professor of Epidemiology, UCSF
2012-2014	Jason Park, ScM	Primary advisor, ScM graduate student, Epidemiology, Harvard T.H. Chan School of Public Health **Co-authored 1 publication	MD student, Boston University Medical School
2012-2017	David Grelotti, MD, MPH*	Primary advisor, Post-Doctoral Fellow Psychiatric Epidemiology, Harvard T.H. Chan School of Public Health and Behavioral Medicine, Massachusetts General Hospital **Co-authored 8 publications; 3 other publications; Primary mentor on Harvard CFAR Scholar grant and NIDA R21	Associate professor of Psychiatry and Global Health / Director of HIV Psychiatry, UCSD

2013-2015	Cheung Hoi Cheung "Doug", MS, ScM*	Primary advisor, ScM student, Epidemiology, Harvard T.H. Chan School of Public Health **Co-authored 1 publication	Medical student, Boston University School of Medicine
2013-2020	Angela Robertson Bazzi, PhD, MPH*	Primary mentor for Post-Doctoral Fellow, Global HIV Epidemiology Harvard T.H. Chan School of Public Health; Co-authored 8 publications, 3 more under review; Primary mentor on Harvard CFAR Scholar grant; Co- mentor on NIH K award; ongoing research mentorship	Associate Professor of Social and Behavioral Sciences, Boston University School of Public Health
2013-2015	Jowanna Malone, PhD, ScM	Research mentor, ScM Epidemiology, Harvard T.H. Chan School of Public Health; Research Associate Graduate of Harvard College **Co-authored 3 publications	Post-doc, ID Epidemiology, Johns Hopkins University
2014-2016	Blake Johnson, MD, ScM	Primary advisor, ScM graduate student, ID Epidemiology, Harvard T.H. Chan School of Public Health **Co-authored 4 publications	Medical resident, UNC Chapel Hill
2014-2015	Rebecca Butler, ScD, ScM	Primary advisor, Harvard T.H. Chan School of Public Health, ScM student, Epidemiology,	ScD student, Epidemiology, Harvard T.H. Chan School of Public Health
2014-2015	Derek MacFadden, ScD, MD, ScM	Primary advisor, Harvard T.H. Chan School of Public Health, ScD student, Epidemiology	Scientist, Ottawa Hospital Research Institute.
2015-2018	Akilah Dulin Keita, PhD*	Senior faculty mentor; provided mentorship on current R01	Associate of Behavioral and Social Sciences, Brown University School of Public Health
2015-2018	Amy Nunn, ScD, ScM*	Senior faculty mentor, mentored in writing current NIMH R34 and R01; 4 manuscripts	Professor Medicine/Behavioral & Social Sciences, Brown University
2015-2016	Lauren Brinkley- Rubenstein, PhD*	Senior faculty mentor for Post- Doctoral Fellow, Brown University, mentored through current NIMH R34; 2 manuscripts	Assistant Professor of Health Behavior, UNC Gillings School of Global Public Health
2015-2017	Kristi Gamarel, PhD*	Research mentorship for Post-Doctoral fellowship, Warren Alpert School of Medicine, Brown University; 4 manuscripts	Associate Professor, Behavioral and Social Health Sciences, University of Michigan, Ann Arbor

2015-2018	Philip Chan, MD*	Research mentorship, manuscript collaboration for HIV prevention in Rhode Island; mentored through current R34 with Dr. Amy Nunn; MPI on another R34; provided mentorship on current RO1; 3 manuscripts	Associate Professor of Medicine/Infectious Diseases Attending Physician/Director of STI clinic/PrEP clinic, Lifespan Hospital/Brown
2015-2016	Eulalia Karina Santamaria, MPH	Research mentor	PhD student, Behavioral & Social Health Sciences, Brown University School of Public Health
2016-2020	Adedotun Ogunbajo, PhD, MPH, ScM*	Primary academic advisor and research mentor for PhD; 12 manuscripts; Brown Presidential Scholarship; Awarded the Robert Wood Johnson Health Policy Scholar Fellowship (2016-2020), primary mentor NIH R36 dissertation grant award; Chair dissertation committee. Ongoing research mentorship	Post-doctoral fellow, Harvard University
2016-2020	Arjee Restar, PhD, MPH	Primary academic advisor and research mentor; 9 manuscripts; Awarded the Robert Wood Johnson Health Policy Scholar Fellowship (2017-2019), primary mentor	Assistant Professor, University of Washington, Seattle, WA
2016-2018	John Frank, PhD*	Primary academic advisor and research mentor for post-doctoral fellowship, Psychiatry & Human Behavior and Behavioral & Social Health Sciences, Brown University; 3 manuscripts; Brown CFAR Grant	Post-Doctoral Fellow, Psychiatry & Human Behavior and Behavioral & Social Health Sciences, Brown University School of Public Health
2016-2020	Jacob van den Berg, PhD*	Senior research mentor *Primary mentor on Providence/Boston CFAR grant; 2 manuscripts	Associate Professor, Tufts University School of Medicine, Boston, MA
2016-2018	Laura McPeake, MD	Primary academic advisor, ScM Brown School of Public Health	Assistant Professor of Emergency Medicine, Warren Alpert Medical School; ScM student, Behavioral & Social Health Sciences, Brown University
2016-2020	Alberto Edeza, PhD*	Research mentor, dissertation committee member, 9 publications PhD student, Behavioral & Social Health Sciences, Brown University School of Public Health	Senior Epidemiologist, Rhode Island State Department of Public Health
2016-2017	Kelsey Anderson, BS	Undergraduate honors thesis advisor; 1 manuscript; first-place poster winner, Brown Public Health Research Day 2017 (mentor)	Medical Student, Brown University

2016-2017	Sarah Nadimpalli, PhD*	Research mentorship	Research Associate, Center for Health Equity Research, Brown University
2016-2017	Brandon Marshall, PhD, MSc*	Senior faculty mentor; 4 manuscripts	Associate Professor of Epidemiology, Brown University
2016-present	Nick Tarantino, PhD*	Research mentor, NIH K-23	Assistant Professor, Psychiatry & Human Behavior, Brown (Alpert) Medical School
2016-2018	Ashley Truong, BS	Research mentorship; Undergraduate honors thesis advisor; 2 manuscripts	PhD student, Johns Hopkins SPH
2017- 2020	Harry Jin, PhD, MPH	Primary academic advisor and research mentor PhD student, Epidemiology, Brown University School of Public Health; 10 manuscripts; Chair dissertation committee	Epidemiologist, Johnson & Johnson
2010-present	Jackie White Hughto, PhD, MPH*	Previous Epidemiology Projects Manager (pre-doc); Post-Doctoral Fellow at Brown; **Co-authored >15 publications; Primary mentor on Prov/Boston CFAR Scholar grant; Primary mentor on COBRE grant	Assistant Professor, Social and Behavioral Sciences and Epidemiology, Brown University
2018-present	Pablo Kokay Valente, MD, MPH	Secondary academic advisor for PhD program, Behavioral & Social Health Sciences, Brown University School of Public Health; Research mentor; 7 manuscripts	Assistant Professor of Public Health, UConn
2019- present	Lynne Klasko-Foster, PhD, MPH	Primary Mentor Post-Doctoral Fellowship, Brown University; 4 manuscripts; 1 book chapter	Epidemiologist, Johnson & Johnson
2019- present	William Lodge, ScM	Primary academic advisor and research mentor; 3 manuscripts; 1 book chapter	PhD student, Behavioral & Social Health Sciences, Brown University School of Public Health
2019-2020	Ha-Jung Kim	Primary academic advisor	Undergraduate, Brown University
2019-2020	Makoto Kobayashi	Primary academic advisor	Undergraduate, Brown University
2019-2020	Maya Olin	Primary academic advisor	Undergraduate, Brown University
2019-2020	Ezenna Onuoha	Primary academic advisor	Undergraduate, Brown University

2019-2020	Rachel Warner	Primary academic advisor	Undergraduate, Brown University
2020-present	Anne Fehrenbacher, PhD, MPH	Research Mentor on K award; Post-Doctoral Fellow UCLA, Geffen School of Medicine ; 1 manuscript	Assistant Professor of Clinical Population and Public Health Sciences, USC
2020-2022	Faaziah Arshad	Research Mentor	Undergraduate Student, UCLA
2021-2022	Vanessa Espericueta	Research Mentor	Undergraduate Student, UCLA
2021-2022	Caleb Garcia	Research Mentor	Undergraduate Student, UCLA
2021-present	Keyanna Taylor, MPH	Primary academic advisor	PhD student, Epidemiology, UCLA
2021-present	Yuhang Qian, ScM	Primary academic advisor	PhD student, Epidemiology, UCLA
2021-2022	Andrew Hanna	Primary Mentor, NIDA Summer Research Internship Program	Undergraduate Student, UCLA
2021-present	Roxana Rezai, MPH	Dissertation Committee Member	PhD student, Epidemiology, UCLA
2021-present	Alexander Moran, MPH	Dissertation Committee Member	PhD student, Epidemiology, UCLA
2021-present	David Vargas Ayala, BS	Research Mentor	MPH student, Epidemiology, UCLA
2021-present	Candelaria Garcia, BS	Primary academic advisor	MPH student, Epidemiology, UCLA
2021-present	Jimmy Hua, BS	Primary academic advisor	MPH student, Epidemiology, UCLA
2021-present	Hayden Mountcastle, BS	Primary academic advisor	MPH student, Epidemiology, UCLA
2021-present	Juan Solis, BS	Research Mentor	MPH student, Community Health Sciences, UCLA

Formally Supervised Trainees / Research Staff (on my funded grants)

<u>Duration</u>	<u>Advisee/Trainee</u>	<u>Mentorship Role</u>	<u>Current Position</u>
2005-2006	Andrew Fair, ScM, MPA	Research Associate **Co-authored 1 publication	Director NYC Department of Health
2005-2008	Ashley Tetu, MPH	Research Associate **Co-authored 3 publications	PhD student in Social Sciences at UW

2006-2011	Carey Johnson, ScM	International Studies Project Manager **Co-authored 6 publications	Senior Program Officer, Family Health International
2006-2007	Katherine Bonafide, MA, PhD	Research Associate **Co-authored 1 publication	Assistant Professor, SUNY Cortland
2007-2008	Benjamin Colburn, MD	Research mentorship	Medical Resident, UCSF
2008-2010	Sean Bland, JD	Research Associate **Co-authored 4 publications	Senior Scholar, O'Neill Institute
2007-2011	Brandon Perkovich, MD, MBA	Research mentorship during undergrad at Harvard College; Point Foundation Scholar **Co-authored 3 publications	Resident Physician in Emergency Medicine, Stanford Health Care
2009-2015	Wade Taylor, PhD	Research mentorship for Post- Doctoral Fellow **Co-authored 4 publications	Associate Dean for Academic Affairs & Clinical Associate Professor, BC
2009-2016	Elizabeth F. Closson, MSc	Epidemiology Projects Manager **Co-authored >10 publications	PhD candidate, London School of Hygiene & Tropical Medicine
2010-2012	David Hankins	Research Associate	Medical School, Dartmouth University; Psychiatry Resident Cornell Medical School
2010-2011	Blake Rowley	Research Associate **Co-authored 3 publications	Program Director, NASTAD, MPH student, George Washington University
2010-2015	Steven Elsesser, MD	Research Coordinator **Co-authored 3 publications	Medical Resident, University of Pennsylvania
2010-2014	Nicholas Perry, PhD	Research Associate **Co-authored 3 publications	Assistant Professor, University of Utah
2010-2013	Michael Garber, MSW	Research Therapist **Co-authored 1 publication	Therapist, New York City
2011-2013	Bianca Aponte, MBA	Research Associate	High School Teacher; Member, Board of Directors, Fenway Health
2011-2015	Emilia Dunham, MPP, MBA	Research Director **Co-authored 3 publications in press	Director of Health Policy, Massachusetts Department of Public Health
2011-2016	Nelisa Rash	Research Associate	Staff, RMV Boston
2011-2014	Janna Gordon	Research Associate **Co-authored 1 book chapter	PhD student in clinical psychology, UCSD/SDSU joint doctoral program

2011-2013	Johannes Wilson	Research Associate **Co-authored 2 publications	N/A
2012-2013	Zupenda Davis	Black AIDS Institute Mentorship Program	PhD student, Drexel University
2012-2013	Victoria Love	Research Associate	N/A
2012-2014	Vish Kothery, MD	Research Associate **Co-authored 2 publications	Attending, Vanderbilt University
2012-2016	Julia Coffey-Esquivel, MPH	Project Director, Epidemiology, Fenway Community Health **Co-authored 4 publications	Admissions Counselor, Milton Academy
2013-2014	Jason Mattie, JD	Research Associate **Co-authored 1 publication	Lawyer, University of Colorado
2013-2015	Kirkpatrick Fergus, M.D., MAS	Research Associate **Co-authored 3 publications Graduate of Harvard College	Surgery Fellowship, UCSF
2013-2021	Dana Pardee, MBA, MPP	Project Director; Co-authored 5 publications	Project Director, The Fenway Institute; MBA/MPP student at Boston University
2014-2015	Eric Lamy	Research Associate	Study Coordinator, RIDPH
2015-2016	Joshua Prenner	Research Associate	Medical student, UCSF
2016-2018	Emily Brown	Research Associate; Co-authored 7 publications	MSN student, Yale School of Nursing
2016-2020	Peter Salhaney, ScM	Study Coordinator; former Research Assistant; ScM student Brown School of Public Health research advisor; Co-authored 6 publications; and 2 book chapters	Study Coordinator, Center for Health Equity Research
2017-2022	Jennifer Olson, MBA	Project Director; Co-authored 2 publications	Project Director, Center for Health Equity Research
2017- 2020	Christopher Santostefano, MPH	Research Nurse; MPH student Brown School of Public Health; Co-authored 4 publications	Research Analyst, Brown University SPH
2017- 2020	Josibel Garcia Valles, BS	Research Assistant; Co-authored 1 publications	Research Assistant, MDPH
2020-2021	Nimish Saxena, BS	Research Assistant at Fenway; Co-authored 2 publications	Medical Student, Boston University Medical School
2021-2022	Emilio Loret de Mola, BS	Research Assistant at Fenway; Co-authored 1 publication	Research Coordinator, BIDMC

2020-present	Eun Kwak, BA	Research Coordinator	UCLA Fielding School of Public Health
2022-	Ellie Nelson, BS	Research Associate	UCLA Fielding School of Public Health
2022-	Roxana Rezai, MPH	Graduate Research Coordinator; PhD Student Epidemiology	UCLA Fielding School of Public Health
2020-present	Rey Soto, BS	Data Manager, MWCCS	UCLA Fielding School of Public Health
2020-present	John Oishi, MSPH	Research Director, MWCCS	UCLA Fielding School of Public Health
2020-present	Daniel Cheng, BS	Research Coordinator, MWCCS	UCLA Fielding School of Public Health
2020-present	Maxwell Hechter, MPH	Research Coordinator, MWCCS	UCLA Fielding School of Public Health

Invited Presentations / Guest Lectures*

*Organized by the point in time for which the lecture was given relative to my primary affiliation at the time.

Local – No Presentations Below Were Sponsored by Outside Entities (Since 2008)

2008	Harvard T.H. Chan School of Public Health, Mental Health Caucus. “Mental health issues among men who have sex with men”
2008	Massachusetts General Hospital, Department of Psychiatry. Behavioral Medicine seminar. “Intervention development for MSM with crystal meth abuse who are at risk for HIV infection”
2008	Massachusetts General Hospital, Department of Psychiatry. Behavioral Medicine seminar. “Intervention development for MSM with crystal meth abuse who are at risk for HIV infection”
2008	Massachusetts General Hospital, Department of Psychiatry. Behavioral Medicine seminar. “Epidemiology and biostatistics in behavioral medicine research”
2009	Massachusetts General Hospital, Department of Psychiatry. Behavioral Medicine seminar. “Treatment for crystal methamphetamine abuse/dependence among MSM at risk for HIV infection”
2009	Massachusetts General Hospital, Department of Psychiatry. Behavioral Medicine seminar. “Epidemiological methods in behavioral medicine research”
2010	Massachusetts General Hospital, Department of Psychiatry. Behavioral Medicine seminar. “Treatment for crystal methamphetamine abuse/dependence among MSM at risk for HIV infection”
2010	Massachusetts General Hospital, Department of Psychiatry. Behavioral Medicine seminar. “Biostatistical methods in behavioral medicine research”
2011	Massachusetts General Hospital, Department of Psychiatry. Behavioral Medicine seminar. “Treatment for crystal meth abuse/dependence among MSM at risk for HIV infection”
2011	Massachusetts General Hospital, Department of Psychiatry. Behavioral Medicine seminar. “Biostatistical methods in behavioral medicine research”

2011	Harvard Center for AIDS Research Behavioral and Social Sciences Program. "Intervention development for stimulant dependence and risk reduction in HIV uninfected and infected MSM"
2012	Massachusetts General Hospital, Department of Psychiatry. Behavioral Medicine seminar. "Treatment for crystal methamphetamine abuse/dependence among MSM at risk for HIV infection"
2012	Massachusetts General Hospital, Department of Psychiatry. Behavioral Medicine seminar. "Biostatistical methods in behavioral medicine research"
2012	Harvard T.H. Chan School of Public Health, HIV Prevention Interventions Course. "HIV prevention intervention for at risk populations globally"
2012	Harvard Center for AIDS Research Behavioral & Social Sciences Program. "Understanding PrEP implementation if high-risk substance using MSM"
2013	Harvard T.H. Chan School of Public Health, HIV Epidemiology Course. "HIV prevention among at risk populations globally"
2013	Harvard Center for AIDS Research Behavioral & Social Sciences Program. "Understanding PrEP implementation if high-risk MSM globally"
2013	Harvard T.H. Chan School of Public Health, HIV Prevention Interventions Course. "HIV prevention intervention for at risk populations globally"
2014	Harvard T.H. Chan School of Public Health, HIV Epidemiology Course. "HIV prevention among at risk populations globally"
2014	Harvard T.H. Chan School of Public Health, Mental Health Caucus. "Mental health issues among sexual and gender minority groups"
2014	Harvard T.H. Chan School of Public Health, HIV Prevention Interventions Course. "HIV prevention intervention for at risk populations globally"
2015	Massachusetts General Hospital, Department of Psychiatry. "Epidemiology and biostatistical methods for behavioral and social science research"
2015	Brown Center for Alcohol & Addiction Studies, CAAS Rounds, "Developing and testing empirically validated behavioral treatments for stimulant addiction in the context of HIV primary and secondary prevention"
2016	Brown Behavioral & Social Health Sciences Journal Club, "HIV prevention: The current state of knowledge in behavioral and biomedical prevention"
2016	Brown Social and Behavioral Science HIV Journal Club, "The global burden of HIV: Current status, successes, and public health approaches to address ongoing challenges"
2019	University of Rhode Island, Psychology Department Seminar Series, "Conducting HIV prevention interventions with marginalized and disenfranchised communities"
2020	UCLA Life Sciences Student Association, "Professor Panel: inquiries about my research, why I chose my field, and aspects that make my professorship rewarding"
2021	UCLA Zoomside Chat, "Public Health Concerns Among Sexual and Gender Minorities in Los Angeles: Progress Towards Health Equity"
2021	UCLA Department of Epidemiology, "Research Supplements to Promote Diversity in Health-Related Research"

2021 UCLA , The Center for HIV Identification, Prevention, and Treatment Services, "Research Supplements to Promote Diversity in Health-Related Research"

Regional – No Presentations Below Were Sponsored by Outside Entities

2008 Brown University School of Public Health. "Crystal methamphetamine use and associated HIV risk among men who have sex with men"

2008 Suffolk University, Health Psychology graduate course, invited lecture. "Crystal methamphetamine, risky sex, and intervention development"

2008 Massachusetts Department of Public Health, MSM Mini-forum. "Hot topics in MSM research"

2009 Suffolk University, Health Psychology graduate course, invited lecture. "Crystal Meth, risky sex, and intervention development"

2010 The Fenway Institute, Fenway Health. "Epidemiology 101"

2010 The Population Research Center, The Fenway Institute, Fenway Health. "Anatomy of a manuscript: How to write a manuscript in 20 sentences"

2011 The Population Research Center, The Fenway Institute, Fenway Health. "Anatomy of a manuscript: How to write a manuscript in 20 sentences"

2014 John Snow, Inc. "Anatomy of a manuscript: How to write a manuscript in 20 sentences"

2014 The Population Research Center, The Fenway Institute, Fenway Health. "Anatomy of a manuscript: How to write a manuscript in 20 sentences"

2015 Brown University School of Public Health. "From The Ground Up: applying a syndemics model to community based HIV prevention among marginalized groups globally"

2015 GRAND ROUNDS: Boston University School of Medicine / Boston Medical Center, Department of Infectious Diseases. "Optimizing HIV prevention efforts for sexual and gender minority populations globally"

National – No Presentations Below Were Sponsored by Outside Entities

2009 NIH/CDC pre-meeting to the National HIV Prevention Conference, invited talk. "Sex positive intervention development for HIV risky MSM"

2010 University of Miami, Miller School of Medicine. "Behavioral intervention to reduce sexual risk taking in MSM who abuse crystal meth who are at risk for HIV acquisition"

2015 GRAND ROUNDS: University of Chicago Medical Center, Department of Infectious Diseases. "Applying a syndemics framework to HIV prevention efforts for sexual and gender minority populations globally"

2016 Bill and Melinda Gates Foundation, Behavior Change Consultation, Washington, D.C. "The unmet HIV prevention needs and potential intervention strategies for male sex workers and transgender women globally"

2017 New York University College of Global Public Health, Department of Epidemiology. "Applying a syndemics model to enhance HIV prevention science among marginalized groups globally"

2018 University of California, Los Angeles, School of public Health, Department of Health Policy and Management. "Enhancing HIV prevention science and its application to health policy among sexual and gender minorities"

- 2018 Mid-Summer Family Medicine Digest, Myrtle Beach, SC. "Creating a gender affirming healthcare environment for optimal HIV care"
- 2018 Columbia University, Mailman School of Public Health, Department of Epidemiology. "Using a syndemics framework to augment HIV prevention science efforts among marginalized and disenfranchised populations globally"
- 2018 Indiana University, School of Medicine, Indianapolis, IN. "Creating a gender affirming healthcare environment for optimal HIV care"
- 2018 The University of Pennsylvania, Perelman School of Medicine, Philadelphia, PA. "Enhancing global HIV Prevention Science among marginalized and disenfranchised groups using a syndemics framework"
- 2019 Johns Hopkins University, Bloomberg School of Public Health, Baltimore, MD. "From The Ground Up: applying a syndemics model to community based HIV prevention among marginalized groups globally"
- 2020 University of California, Los Angeles, School of public Health, Department of Epidemiology, "Applying a syndemics model to HIV epidemiology and to enhance prevention science among marginalized groups domestically and in resource-constrained countries"
- 2020 Rutgers University, Institute for Health, Health Care Policy & Aging Research, Rutgers Biomedical and Health Sciences. "Integrating HIV epidemiology and behavioral science research for HIV prevention among marginalized and disenfranchised groups"
- 2021 GRAND ROUNDS: Weill Cornell Medical Center, Department of Psychiatry. "Enhancing global HIV Prevention Science among marginalized and disenfranchised groups using a syndemics framework"
- 2022 South Central AIDS Education and Training Center, "Despite the perfect storm: HIV prevention, treatment, and risk reduction throughout the patient's life cycle"

International – No Presentations Below Were Sponsored by Outside Entities

- 2009 Tuberculosis Research Centre, Indian Council of Medical Research and Loyola University/University of Madras, Chennai, India. "An introduction to qualitative and quantitative methods"
- 2009 The Humsafar Trust and the National AIDS Research Institute, Mumbai, India. "Qualitative methods in HIV prevention research"
- 2009 The Humsafar Trust and the National AIDS Research Institute, Mumbai, India. "From research to program implementation"
- 2009 12th Congress of the European Society for Sexual Medicine (ESSM), Lyon, France, invited talk. "Sexual risk behaviors among men who have sex with men"
- 2010 Centers for Disease Control and Prevention, Ho Chi Minh City, Vietnam. "MSM and vulnerability to HIV infection"
- 2010 University of Chiang Mai, Thailand. "Using qualitative methods to design a secondary HIV prevention intervention for HIV-infected individuals in care settings" (three-day training)
- 2010 Instituto de Pesquisa Clinica Evandro Chagas (IPEC) - Rio de Janeiro, Brasil. "Using qualitative methods to design a secondary HIV prevention intervention for HIV-infected individuals in care settings" (three-day training)

- 2010 Matero Clinic– Lusaka, Zambia. “Qualitative methods to design a secondary HIV prevention intervention for HIV-infected individuals in care settings” (3-day training)
- 2010 University of KwaZulu Natal, Durban, South Africa. “Qualitative methods for intervention development with populations at high risk for HIV”
- 2010 United States Agency for International Development (USAID) and Clinica Condesa and Colmex, Mexico City, Mexico. “Non-occupational post-exposure prophylaxis (NPEP): findings from published clinical and behavioral studies among Boston MSM”
- 2010 United States Agency for International Development (USAID), Mexico City, Mexico. “State of the art in HIV prevention with MSM”
- 2010 Center for Promotion of Quality of Life (Life Centre), Ho Chi Minh City, Vietnam. “3-day training in use of qualitative methods with male sex workers”
- 2011 Lisbon, Portugal. 2011 NIAID Conference on HIV/AIDS Research. “Intervention development for HIV sexual risk reduction among high-risk men who have sex with men”
- 2011 Saint Petersburg, Russia. “Training in use of qualitative methods with MSM at-risk for HIV”
- 2011 Humsafar Trust, Mumbai, India. “Model of LGBT Health and Health Care Delivery”
- 2011 Prince Myshiyeni Memorial Hospital, Durban, South Africa. “Training in qualitative methods for use in a hyper-endemic HIV setting”
- 2011 Centers for Disease Control and Prevention headquarters, Ho Chi Minh City, Vietnam. “MSM and Vulnerability to HIV infection”
- 2012 Centers for Disease Control and Prevention headquarters, Ho Chi Minh City, Vietnam. “Interventions for HIV prevention among male sex workers in Vietnam”
- 2012 National Institute for Research on Tuberculosis (NIRT/ICMR), Chennai, India. “Model of Health and Health Care Delivery for at Risk Populations”
- 2013 Treat ASIA, Bangkok, Thailand. “Interventions for methamphetamine dependence and other substance use in HIV uninfected and infected MSM”
- 2013 Treat ASIA, Bangkok, Thailand. “Holistic HIV prevention interventions grounded in the social realities of young transgender women”
- 2013 Treat ASIA, Bangkok, Thailand. “Fostering resilience and addressing psychosocial needs and HIV risk among MSM in resource-limited settings”
- 2013 University of Chiang Mai, Thailand. “Analyzing qualitative data to design a secondary HIV prevention intervention for HIV-infected”
- 2013 UCLA and IMPACTA, Lima, Peru. “HIV prevention interventions for high risk groups in resource limited settings”
- 2013 CDC and HAIVN, Ho Chi Minh City, Vietnam. “A manualized, group-based HIV prevention intervention for at risk MSM in HCMC, Vietnam”
- 2013 CDC and HAIVN, Ho Chi Minh City, Vietnam. “Anatomy of a manuscript: How to write a manuscript in 20 sentences”
- 2014 National Institute for Research on Tuberculosis (NIRT), Indian Council of Medical Research. “Analysis of qualitative data using NVIVO and ATLAS.ti software”

- 2014 Thai Red Cross, Bangkok, Thailand. "Preparing for PrEP: The current state of knowledge about oral and topical chemoprophylaxis"
- 2014 UCLA / IMPACTA, Lima, Peru. "Pre-exposure antiretroviral prophylaxis (PrEP) attitudes and perceptions among substance using, partnered MSM at risk for HIV infection"
- 2014 Universidad De Lima, Lima, Peru. "The causative effect of syndemic production on HIV incidence and risk behavior in a large cohort of sexually active men who have sex with men"
- 2014 University of Mumbai sponsored conference at The Humsafar Trust, Mumbai, India. "Epidemiological methods in behavioral, social and biomedical research"
- 2015 AIDSIMPACT 12th international conference in Amsterdam, Netherlands. "Multiple syndemic psychosocial factors are associated with reduced engagement in HIV care among a multinational, online sample of HIV-infected MSM in Latin America"
- 2015 National Institute for Research on Tuberculosis (NIRT), Indian Council of Medical Research, Chennai, India. Dissemination workshop: "HIV prevention through mobile phone technology among male sex workers in India"
- 2016 Opening plenary, Ontario HIV Treatment Network conference, HIV Endgame: Stopping the Syndemics that Drive HIV. "Psychosocial syndemics potentiating HIV spread among MSM"
- 2016 Global Forum on MSM & HIV; session on Tech Sex: The Role of Digital Technologies in Relation to the HIV Response, Durban, South Africa. "A pilot randomized controlled trial of a mobile phone delivered counseling intervention to reduce HIV risk among male sex workers in Chennai, India"
- 2016 United Nations High Commissioner for Refugees (UNHCR) and the Ministry of Health of Zambia, Lusaka. "Potentially viable methods for conducting research with refugee populations"
- 2016 United Nations High Commissioner for Refugees (UNHCR) and HIAS, Quito, Ecuador. "Human subjects protection: Establishing a probability sample of adolescent refugees"
- 2017 Instituto de Pesquisa Clinica Evandro Chagas (IPEC) - Rio de Janeiro, Brasil. "Developing and testing a secondary HIV prevention intervention for HIV-infected youth"
- 2017 Tuberculosis Research Centre, Indian Council of Medical Research, Chennai, India. "A randomized controlled trial of a mobile phone delivered HIV prevention intervention for MSW in Chennai"
- 2018 Tuberculosis Research Centre, Indian Council of Medical Research and Loyola University/ University of Madras, Chennai, India. "An introduction to qualitative and quantitative methods"
- 2018 The Humsafar Trust and the University of Mumbai, Mumbai, India. "Behavioral intervention research in resource constrained settings"
- 2019 National Institute for Research on Tuberculosis (NIRT), Indian Council of Medical Research, Chennai, India. "Using technology to reach male sex workers for HIV prevention in India"
- 2020 Invited Featured Speaker, 22nd International Symposium on HIV Medicine, Bangkok, Thailand. "Effective responses and harm reduction for problematic chemsex and HIV infection"
- 2020 The Indian Council of Medical Research (ICMR), New Delhi, India. Epidemiology of HIV among MSM in India and interventions to curb its spread.

Symposia Presentations at Scientific Conferences (limited to prior 10 years)

Note: total conference presentations as primary or co-author (>200) not listed

2009	The Effectiveness of Respondent-Driven Sampling to Recruit Minority and Hard-to-Reach MSM	Centers for Disease Control STD Prevention Conference, Chicago, IL
2009	Psychosocial and behavioral predictors of partner notification for STD and HIV exposure among men who have sex with men (MSM)	Centers for Disease Control STD Prevention Conference, Chicago, IL
2009	Psychosocial and behavioral correlates of STD and HIV risk behavior among Massachusetts men who have sex with men (MSM) with Posttraumatic stress disorder	Centers for Disease Control STD Prevention Conference, Chicago, IL
