COVID-19 has not only devastated communities, it has illuminated the inequities in our health care system. And for Native Hawaiians and Pacific Islanders (NHPIs) — who are seeing rates of infection up to five times that of white people in L.A. County alone — a lack of disaggregated race and ethnicity data has made them invisible. Join the UCLA CHPR as we launch the NHPI COVID-19 Data Policy Lab and introduce a dashboard that highlights the disproportionate impact COVID-19 is having on this vibrant community.
