Re: FSPH Environmental Sustainability Committee

Your charge is to:

- § Meet monthly to review, propose and discuss programs, efforts, and outcomes of School sustainability efforts
- § Recommend ways to coordinate FSPH sustainability efforts with campus efforts
- § Issue regular (e.g., quarterly) updates via email and web to the School and community on sustainability activities and accomplishments

As a new committee, you should identify priority goals and activities for your group and consider how to engage the entire FSPH in working towards those goals.
